DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Luquire, Isenhardt, Contat, or Bibollet. The four prior art references recited above teach the claimed chain structure. It would have been obvious to one of ordinary skill in the art at the time of the invention to have provided a plurality of the said links into a chain for hanging things, whether for mountain climbing or suspending a lamp.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
